

INNOVATIVE TECHNOLOGY SOLUTION PROVIDER

Napier Healthcare Solutions is a specialist Cloud technology vendor for healthcare providers with augmented intelligence in all its products. Our global headquarters is located at the heart of Southeast Asia – Singapore.

We are driven by the focus to deliver “Excellence in Healthcare Management” with an ingrained culture of innovation. Our offerings are built with inputs from industry veterans, clinicians, medical practitioners, and patients. It’s our culture to go beyond what is expected, to create customer value, and delivering distinct advantage in creating value for businesses in the healthcare and digital world.

Transform Healthcare Journey

Napier Clinical Solutions are designed by clinical practitioners, for doctors, nurses and allied healthcare professionals. Simplifying the complexities of healthcare management, so that caregivers like you can focus on what’s really important—caring for patients and extending your service reach.

Innovative technological solution continues to be one of the critical focuses across the digital health ecosystem. Napier has set up a Healthcare Cloud for healthcare organizations that simplify data and application management across cloud and on-premises.

Artificial Intelligence (AI) continues to be one of the critical focuses across the digital health ecosystem. With Napier’s unique “AI Inside”, healthcare providers can leverage insights from data for critical decision making that was inaccessible to them till now.

- ISO 27018:2019
- HIPAA-compliance
- Napier Healthcare Hospital Information System (HIS), Version 2.1 has ONC HIT 2014 Edition Complete EHR Certification

WHY CHOOSE US

“ With the implementation of Napier Hospital Information System (HIS), we are certainly thrilled with the outcome. With professional and dedicated project management teams from both AMC (Eng. Abdul Haleem, AMC IT Director) and Napier Product/Support and Implementation team, the project took off and went live from offshore despite the global pandemic. This is a proud moment and demonstrates taking digital reachability to its next level. It is a perfect example of the Digital Method approach.

Mamdouh Albaqumi
Founder and CEO of Anfas Medical Care (AMC) Hospital.

• Consistency in Innovation

Napier's approach to technology ensures a platform for a variety of acute care and long term care providers. Armed with Napier's technology and expertise, healthcare providers can now launch new service lines in the shortest possible time on the Cloud and with Comprehensive Mobility access.

Today, Napier builds not only healthcare management products but is also infusing Artificial Intelligence and Machine Learning in all its modules. Napier's "smart" assistant provides actionable insights based on their Data and a predictive ability that allows for informed decision and future-proofs the business challenges.
